Curriculum Vitae

6. Professional Experience

Digital Marketing Trainer and Director

Learn2Earn Labs, Agra, Uttar Pradesh
[2019] – Present

Conduct hands-on digital marketing training for students, job seekers, entrepreneurs and working professionals.

- Deliver practical sessions on SEO, WordPress, Meta Ads, social media marketing, content strategy, web analytics and organic lead generation.
- Develop industry-oriented curricula, training notes, assignments, practical exercises and real-world projects.
- Use AI tools such as ChatGPT, Gemini and Claude for teaching, research, content development, campaign planning and website creation.
- Demonstrate live website development, SEO implementation, landing-page creation, lead-generation forms and campaign analysis.
- Guide learners in developing practical portfolios, completing digital marketing projects and preparing for employment, freelancing and business promotion.
- Conduct training programs and workshops in collaboration with colleges, universities and organizations.
- Evaluate learner performance through assignments, presentations, live practical tasks and project submissions.
- Regularly update course content according to changes in digital marketing platforms, AI tools, advertising practices and industry requirements.
- Manage the digital presence, content strategy, SEO and lead-generation activities of Learn2Earn Labs.

WordPress Developer and Digital Marketing Consultant

Independent Projects

- Develop SEO-friendly, responsive and conversion-focused WordPress websites for education, publishing, e-commerce, jewellery and industrial businesses.
- Plan website structures, landing pages, content strategies, enquiry forms and customer journeys according to business requirements.
- Implement on-page SEO, structured data, metadata, internal linking and website performance optimization.
- Develop and optimize Meta Ads strategies based on audience behaviour, conversion performance and return on advertising spend.
- Use AI tools for research, content creation, landing-page copywriting, campaign ideation and marketing workflow improvement.
- Coordinate with clients to understand business objectives and convert them into practical website and digital marketing strategies.

Curriculum Vitae

Key Achievements

- Independently developed and managed the Learn2Earn Labs WordPress website containing more than 400 web pages and 97 published blog posts.
- Generated approximately 25,000 website visits through organic search and content marketing during 2025.
- Generated approximately 1,000 organic leads through SEO, website content, landing pages and enquiry forms.
- Converted approximately 120 organic leads into paying customers for Learn2Earn Labs.
- Improved Meta Ads ROAS for Idhani Jewels from approximately 1.2 to 2.3 through campaign analysis, optimization and landing-page strategy.
- Worked on approximately ₹6 lakh in Meta Ads expenditure for Idhani Jewels during 2026.
- Independently developed a research-publication website with journal-wise, volume-wise and issue-wise article categorization.
- Implemented Dublin Core metadata, customized metadata and SEO practices to support Google Scholar indexing.
- Developed and managed websites across education, research publishing, e-commerce, jewellery and industrial sectors.
- Integrated AI tools into digital marketing training, website development, SEO, content creation and campaign planning.

Selected Projects

Learn2Earn Labs

WordPress Development, SEO, Content Marketing and Organic Lead Generation Website: <https://learntoearnlabs.com/>

- Independently developed and managed an online and offline course-selling website using WordPress.
- Created and maintained more than 400 web pages and 97 blog posts.
- Managed complete on-page SEO, website structure, internal linking, content publishing and keyword optimization.
- Generated approximately 25,000 website visits through organic marketing activities during 2025.
- Generated approximately 1,000 organic leads through SEO, content and enquiry forms.
- Converted approximately 120 leads into paying customers.
- Developed contact forms and enquiry systems for prospective learners.
- Used AI tools for content planning, research, page development, SEO and marketing workflows.

Scholarly Publication

WordPress Development, Technical SEO and Google Scholar Indexing

Website: <https://scholarlypublication.com/>

- Independently developing and managing a research-article and book-publication website.
- Created dedicated sections for Radius, Commercica and Yatharth journals.

Curriculum Vitae

- Developed volume-wise and issue-wise categories for publishing and organizing research articles.
- Implemented Dublin Core metadata and customized metadata for Google Scholar indexing.
- Managed complete on-page SEO, article structure, categorization and content presentation.
- Developed dynamic contact forms for research-article submission, book proposals and publication enquiries.
- Structured the website for authors, researchers, editors and publication administrators.

Skills Personified

WordPress, WooCommerce and Conversion-Focused Website Development

Website: <https://skillspersonified.com/>

- Developing a service-oriented and e-commerce website for communication-skills courses.
- Used WordPress, Blocksy and WooCommerce to create the website and course-purchasing system.
- Developed conversion-focused landing pages with the support of AI tools.
- Created course pages, calls to action, enquiry forms and purchase-oriented website sections.
- Improved the customer journey from course discovery to enquiry and online purchase.
- Used AI tools for landing-page copy, content structure, design ideas and conversion strategy.

Idhani Jewels, Gurugram

Meta Ads, Landing-Page Strategy and Conversion Optimization

Website: <https://idhani.in/>

- Developed strategies for conversion-focused landing pages and Meta advertising campaigns.
- Analysed campaign performance, conversion rates, audience response and advertising results.
- Improved ROAS from approximately 1.2 to 2.3 through campaign optimization and landing-page improvements.
- Worked on approximately ₹6 lakh in Meta Ads expenditure during 2026.
- Contributed to audience targeting, campaign structure, creative strategy and conversion analysis.
- Used campaign data to identify performance gaps and recommend practical improvements.

Maheshwari Stainless

WordPress Website Development

- Developed a professional website for an industrial business.
- Created business, product and enquiry-focused website sections.
- Structured the website to clearly present the company's services and products.
- Implemented responsive design, contact functionality and basic SEO practices.

Curriculum Vitae

EcoshineEV

WordPress Website Development

- Developed a business website for an electric-vehicle-related company.
- Created service, product and enquiry-focused sections according to the client's requirements.
- The website is no longer publicly available because the domain was not renewed.

- LiteSpeed Cache
- WP-Optimize
- UpdraftPlus
- Website Backup and Restoration
- Website Speed Optimization
- Plugin Management

Content and Design

- Canva
- Coolors
- Microsoft PowerPoint
- Microsoft Excel
- Google Docs
- Google Sheets

AI Skills

- Use ChatGPT, Gemini and Claude for digital marketing research, content planning and teaching support.
- Create structured website content, blog outlines, landing-page copy and calls to action with the assistance of AI tools.
- Use AI for keyword ideas, search-intent analysis, content-gap identification and SEO planning.

Curriculum Vitae

- Develop ad-copy variations, campaign ideas, audience-persona concepts and creative directions for Meta Ads.
- Use AI tools to analyse campaign data, identify possible performance issues and prepare optimization recommendations.
- Create practical exercises, assignments, case studies, quizzes and project instructions for digital marketing learners.
- Use AI to simplify technical topics and explain digital marketing concepts in beginner-friendly language.
- Apply AI tools during WordPress website development for content structuring, troubleshooting, code assistance and page planning.
- Use AI for competitor research, customer-journey planning and conversion-focused landing-page development.
- Verify and refine AI-generated output before using it in training, websites or marketing campaigns.

Training Programs and Workshops

Digital Marketing Training

- Conduct hands-on digital marketing training for students, job seekers, entrepreneurs and working professionals.
- Teach SEO, WordPress, content marketing, Meta Ads, social media marketing, organic lead generation and web analytics.
- Explain digital marketing concepts through live demonstrations, practical exercises and real-world business examples.
- Guide learners in developing websites, landing pages, SEO strategies, content plans and digital marketing portfolios.

WordPress Website Development Training

- Conduct practical sessions on WordPress installation, website planning, page development and plugin configuration.
- Train learners to develop service-based, educational and e-commerce websites.
- Demonstrate the use of Elementor, WooCommerce, Blocksy, contact forms, SEO plugins and performance optimization tools.
- Guide learners in building responsive and conversion-focused websites.

SEO and Content Marketing Workshops

- Conduct sessions on keyword research, search intent, on-page SEO, internal linking and content optimization.
- Demonstrate website audits, blog planning, metadata optimization and structured content development.
- Train learners to create SEO-friendly website pages and blog articles.
- Explain organic traffic generation, lead generation and website conversion strategies.

Curriculum Vitae

Meta Ads and Lead Generation Workshops

- Conduct practical sessions on campaign objectives, audience targeting, ad creatives and campaign structure.
- Explain ad performance indicators such as click-through rate, conversion rate, cost per result and ROAS.
- Demonstrate campaign analysis, optimization and landing-page improvement techniques.
- Guide learners in developing Meta Ads strategies for awareness, lead generation and sales.

AI-Assisted Digital Marketing Training

- Train learners to use ChatGPT, Gemini and Claude for marketing research, content creation and campaign planning.
- Demonstrate AI-assisted keyword research, landing-page development, ad-copy creation and audience analysis.
- Teach learners how to verify, improve and responsibly use AI-generated content.
- Integrate AI tools into assignments, projects, website development and digital marketing workflows.

Institutional and Industry-Oriented Training

- Conduct practical training programs and workshops in collaboration with colleges, universities and organizations.
- Develop training content according to learner level, program duration and industry requirements.
- Use project-based learning to help participants apply digital marketing concepts in practical situations.
- Assess learners through assignments, presentations, live tasks and project submissions.
